

Dr. Neal & Staff,

Attached is a photo I took with my phone a year ago this January when I had surgery. The real reason I took it was to send it to my childhood friend in Ohio as we stay in touch almost daily. She loves to receive pictures.

This is such a good photo of Dr. Neal and Nancy (I could not delete it!), and Randee agreed that I should send it to you - maybe to put on your website?

I have not yet posted a message about the outstanding work Dr. Neal does, and I must do this. I am doing an injustice by not letting people know about his work, and equally, if not even more importantly, his wonderful way of treating his patients. I cannot say enough about how much it means to walk into that room for surgery with such anxiety, to later be almost under a spell of some kind with being at ease throughout the entire procedure.

Dr. Neal is not only one of the "top ten" dentists, but he is in a class above most in his medical field with his calming and reassuring way. I am extremely grateful for Dr. Rizos recommending him to me. I'm not saying I want to have gum surgery on a regular basis, but when it is necessary, there is no better doctor for this than Dr. Neal.
