

Dear Dr. Neal,

This personal thank you is long overdue from when we first met, and you rescued my mouth from further decline. If you can believe - 2009!

Please know, from the bottom of my heart, that I have such deep respect and appreciation for all you have done for me - and all with such sensitivity, patience, and care. I know in the beginning I was not an easy patient! Lots of questions, worry, and denial. You never took offense, and stayed the course to get me in your office so you could do your magic! I just feel blessed to have you and your team in my life, and have such confidence in and appreciation for the dedication of everyone at Bedford Commons. I am forever grateful.

*...then its hard to imagine
a richer life than yours!*

Thank you so much.

*Sincerely,
Kathleen*
